

School Education

1. Admission in Elementary and Junior High School.

A notice will be sent to the families who registered in the end of January. If you don't receive the notice, contact the Academic Issues Section.

- Health medical check before enter Elementary School

Every year, around October, the Health and Physical Education Section send a notice on school medical check to children who will enter in the elementary school in the following year. Fill the forms and go to the elementary school on the chosen day.

2. Procedures to transfer to Elementary and Junior High School

- Coming to Yachiyo city

When you submit a notification of moving in at the Family Register Division, a branch office, or a liaison office, your child's new school will be designated and a notice about it will be sent to you. Foreign nationality children need to register in the Board of Education. A Notification of School Transfer will be issued. Take that notice and the previous school's enrollment certificate and textbook grant certificate to the designated school.

*When you move from overseas, you need to follow the procedure at the Academic Affairs Division.

- Moving to a new address within Yachiyo City

Even if you move within the city, your child's school may change, so please check with the Academic Affairs Division of the Board of Education in advance. If you change the school, after submit the residence certificate and moving residence certificate, consult the Board of Education School Affairs Section. If you want to notify the study continuation, it is necessary a procedure in the Board of Education (Education Department).

- Moving out of Yachiyo City

Obtain an enrollment certificate and textbook grant certificate from your child's school and take these to the new school your child will be attending. The paperwork may take some time, so please submit your request to the new school as soon as possible. Since the school transfer procedure differs somewhat according to the municipality, check with the Board of Education at your new location.

Note: This procedure is not required if you are moving overseas.

3. School Expense Subsidies

To provide proper education in Junior High School, we give school lunch and school material for children with finance difficulty

Also, we issue medical check tickets for treatment as dental caries and otitis media according the school Health and Safety law.

For further information, contact the school or the Board of Education (Academic Issues Section / Health and Physical Education Section).

4. Assistance for Students in Special Education Classrooms

System to help parents in the children school education.

The focus are children in the elementary public school special classes and students registered in a regular class categorized in the deficiency level, according the article

22-3 in the school education law.

5. Free school meals from the third child.
